

# Unity H6A Camera Line

A security partner that never rests

Elevate your situational awareness to new heights with the Avigilon Unity H6A camera line, available in 2, 4, 6 and 8 MP with dome and bullet form factors. Achieve crystal clear details with unmatched intelligence so you can make informed decisions in the moments that matter.

## AI-powered video analytics

Stay on top of what's happening at your site with built-in video analytics to alert you on unusual crowds, abnormal activity and potentially critical events.

## Audio analytics & recording

Expand your awareness with alerts for screaming, glass breaks and more. Review video from the triggered camera to investigate, with the option to record audio when needed.

## Dynamic privacy masking

Easily comply with privacy needs by tracking and blurring people and vehicles in video, while allowing authorized personnel to lift the blur during investigations.

## Outdoor-ready design

Safeguard the outdoors by deploying the exceptionally tough outdoor dome or bullet that are rated IK10/11, IP66/67 and NEMA Type 4X to withstand impact, water and more.

## Low-light clarity

Capture every moment in low-light conditions with IR models available. The split IR dome ensures 24/7 visibility, even with dust buildup, reducing maintenance visits.

## Secure & compliant

Trust that your data is well-protected with advanced cybersecurity features such as an onboard FIPS 140-2 level 3 compliant TPM and Secure Boot.
